la Mobilière

Agenda

- 1. Introduction and Context
- 2. Information Metamodel
- 3. Collection of Metadata
- 4. Linking

Goal: Answers to the Questions:

- 1. Why did we develop our own enterprise data catalog?
- 2. How did we go about it?

Introduction and Context

Some numbers about Mobilière:

• 5'000+ employees

• 150+ agile teams (not including sales organization)

• 20+ business domains

• 1'400+ applications

• 5'000+ technical components

• 500+ databases

25'000+ tables

450'000+ columns

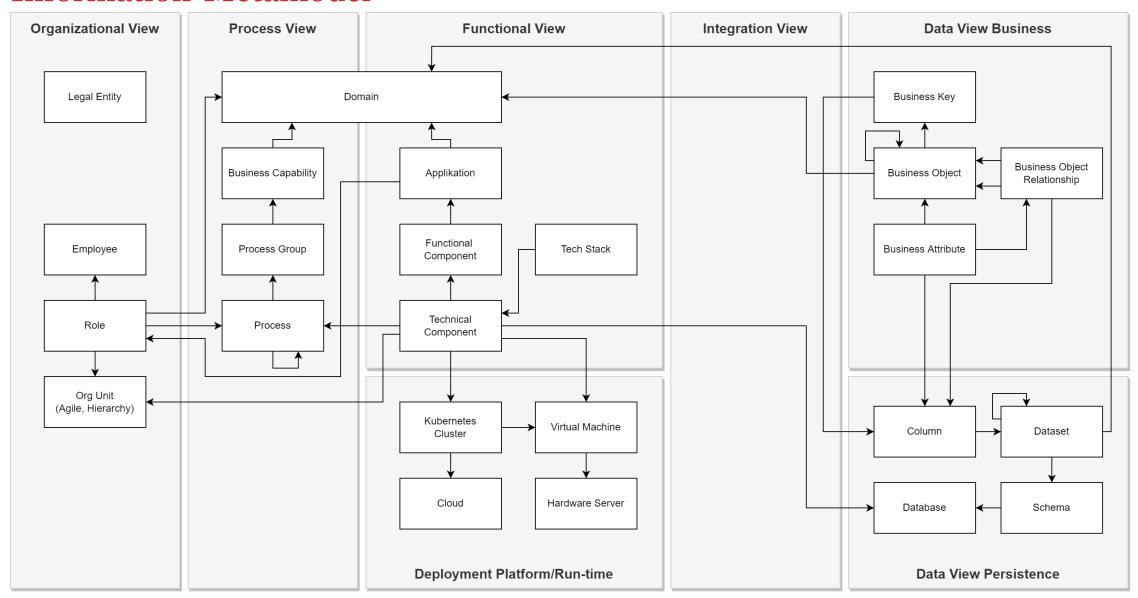

Introduction and Context – User Questions

Who is the domain architect of a database?

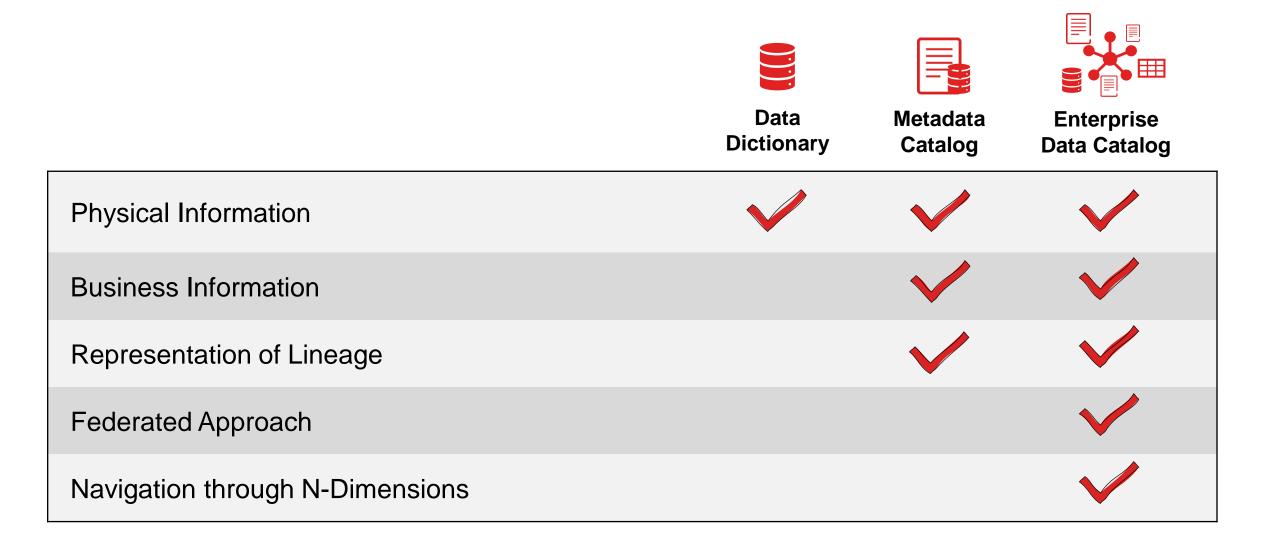

Who are the members of the team developing an application?

Where do I find data for the language preference of the customer?

Information-Metamodel

Introduction and Context – Scope of Solutions
